Providing Precision Solutions

Company Profile

ABC Process Solutions is a company of vast experienced professionals that design, program, build, and integrate process engineering systems, specially for dairy, food, beverage, brewery, pharmaceuticals and cosmetics industries. We provide custom designed processing systems, stand-alone equipment and projects to a broad range of applications. We work with a variety of end-users small or large. From a single component to an entire manufacturing facility, our broad experience allows us to get your system running most efficiently and effectively and can offer a complete solution to your all processing needs. **The highest value for your money.** The company have sought the most talented and experienced people. They instilled in every employee the importance of producing the highest quality product while maintaining integrity in every relationship. This, above all else, has set the objective of the company.

Services we offer

- Providing intelligent process engineering solutions (Concept to consumers - execution of Mechanical, Electrical & Instrumentation work). that improve performance, efficiency and reduce environmental emissions .
- Best in the class SS fabrication -
- All types of tanks, vessels and equipment.
- Authorized Distributor for:

INOXPA & ARMSTRONG

Milk Processing

Beverages

Our Vision

We aspire to be the most preferred organization for all stakeholders through environment friendly, sustainable solutions that can make the world a better place.

Our Mission

Develop and deliver cost-effective, safe, clean and reliable solutions that will maximize prosperity of our customer
Be a socially responsible corporate citizen Create wealth for our stakeholders

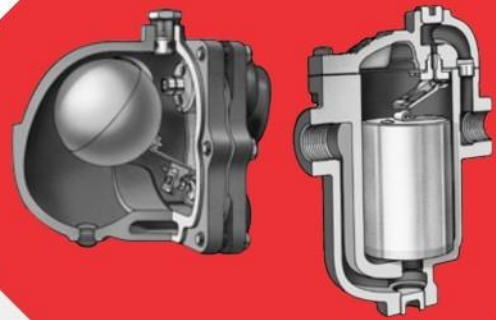

Our Strength

Quality - Our motto is quality of our products and people. Our customers have come to expect the highest quality, and we do not disappoint them.

Integrity - We build long-term business relationships. Integrity is the backbone of our business relationship. Thus it is vital that we maintain the highest level of integrity with our customers, partners, and vendors.

Experience - ABC Process Solutions has a vast experience in process engineering systems. Our engineers and technicians are highly professional and well experienced with Process Solutions. We simply have the most experienced group of process engineering people.

Facilities - World class facility spread over to 600 Sq.Mt. each for Stainless Steel and Carbon steel fabrication.

Inoxpa

A Spanish MNC has started their Indian operations under the name of Inoxpa India Private Limited. Inoxpa set up a state of art manufacturing facilities in Pune before three years to cater their global requirements. Inoxpa India also backed by their global manufacturing facilities located in France, Spain and Portugal.

Inoxpa has their wings widely spread over Pharmaceutical, health care, Dairy, Food, Brewery & Beverages. All products are validated in house as well as certified by world re-known agencies like USFDA, EHEDG, 3Aetc based on the product and process requirements. Inoxpa also equipped to take up the complete process solution including automation with the help of global technological expertise.

Inoxpa launched their products in India and receiving very encouraging responses from various sectors. Inoxpa products are best in class and with an affordable prices for the Indian customers.

Inoxpa have a Ex-stock availability of Butterfly valves, Pneumatic seat valves, NRV's, Safety valves, Centrifugal pumps, lobe pump, multistage pumps, side agitators, turbo blenders, Mixing systems and many other related products.

Inoxpa have also created spares and service network in India and shall be able to provide timely services as and when desired.

Armstrong

Armstrong International, Inc. is a U.S. based company with a global network of sales and energy training facilities located in 60 countries around the world. For more than 112 years Armstrong International has been a global leader in "Steam engineering, energy conservation, and responsible environmental stewardship."

Armstrong provides intelligent system solutions that improve utility performance, lower energy consumption, and reduce environmental emissions.

Armstrong's Offerings:

- ♦ Pre-audit to identify the needs, gather energy cost data,
- ♦ Trap Survey to assess the health of your trap population
- ♦ Trap Management (data management, prioritization, inventory,
- ♦ Engineering Audit to study and develop optimizations projects
- ♦ Basic Design (PFD, P&ID, BOM, Tie-in points, M&V control...)
- ♦ Detailed Engineering (isometrics, stress analysis).
- ♦ Project Implementation (supervision, procurement, supply, installation, commissioning).
- ♦ Operation & Maintenance (sustain performance, scorecards,)

Armstrong solution for YOUR industry

- ♦ Steam and Condensate ♦ Hot Water ♦ Humidification
- ♦ Pressure/Temperature Control ♦ Service

Cosmetics

Some of Our Satisfied Customers

- AMUL DAIRY, ANAND.
- ANIK INDUSTRIES, DEWAS.
- BARODA DAIRY, VADODARA.
- CREAM BELL ICE CREAM, GURGOAN
- GEA PROCESS ENGINEERING PVT,LTD, VADODARA.
- IDEAL ICE CREAM, MANGALORE.
- IDMC LTD, V. U. NAGAR, ANAND.
- MOTHER DAIRY, DELHI.
- PANCHAMRUT DAIRY, GODHARA.
- PITM, USA.
- PAYODI FOODS, (SUB-ZERO LINE), KOLKATA
- SALL, KENYA.
- SUMUL DAIRY, SURAT.
- SABAR DAIRY, HIMMATNAGAR
- VADILAL, AHMEDABAD.
- VALSAD DAIRY, CHIKHLI
- VIDYA DAIRY, ANAND.
- WARNA DAIRY, KOLHAPUR.
